We invite you to
leave footprints of
kindness

Message from H.E. Ms Aisha Mohammed the Minister of Tourism and Culture in Ethiopia

In Ethiopia, nature, culture and history merge to form a timeless appeal. Ethiopia, with its impressive tourism potentials, is truly a land of contrasts and extremes, a land of remote and wild places, and of spectacular alpine terrain - including the Semien Mountains National Park with its 4261 meters peak at Ras Dashen one of the nine UNESCO world heritage sites; and at the other end of the spectrum, the Danakil depression 121 meters below sea level is among the lowest places on earth and extremely hot....

Ethiopia is a land of ethnic diversity. More than 80 nations and nationalities with their own unique languages, cultures and traditions live in peace together. It's beautiful and friendly people assure our dear visitors a warm welcome and unparalleled hospitality.

It is indeed a great honor and privilege, against this background, to cordially invite you, to visit and invest in the endless wealth of Ethiopia's culture and tourism, so that we can mutually benefit, while we conserve a safer, beautiful and greener nature at this part of the planet where it all began - Ethiopia.

Ethiopia is known as one of twelve vavilov centers of primary plant domestication in the world.

Furthermore, due to its geographical position and socio-economic diversity, numerous crop plants that are known to have originated elsewhere have developed an enormous secondary diversification in the Ethiopian region.

(Institute of Biodiversity of Ethiopia)

Ethiopian biosphere reserve and the communities in Ethiopia are places of connectivity and human experiences.

Ecopia Plc has established a tour company in order to link its communities, where more than ten thousand people are working as organic producers, to sustainable tourism.

03/05/2011 10:36

Ethiopian Biosphere reserve:
Lake Tana, Bonga, Sheika,
Kaffa, Yayu. Sometimes it's
necessary to take a break
from the stresses of traveling
and spend quality time with
the person you love and with
your families. We help you
and your family to plan the
ideal love and friendship
getaway. We have narrowed
down the most fascinating
destinations, from Bonga the
mother tree of coffee to the
Yayu rivers.

Message from the founder of the company.
Dr. Mitslall Kifleyesus-Matschie

Our first challenge has been to ask ourselves how can we make your stay with us comfortable, a place of rest, a refuge from the roar and dust and weary, nervous, wasting work of the towns.

We have asked our communities to prepare a room and make these clean and comfortable with sleeping bags.

We have canoes and kaya to complementary our horses for your transportation. As you know we are carbon foot print neutral production company linked with Ethiopian Climate Change Resilience Green Economy. Therefore, we are very happy to welcome you to our biosphere reserves and give accesses and share the benefit of our biodiversity with you.

We expect you to respect our environment and culture and we invite you to participate in our projects of carbon foot print offsetting system.
